The main objective of our quality policy is that we will offer products and services of high quality for demanding mooring systems to customers in the offshore industry.

In addition to fulfilling the customer's formal requirements for quality, we also strive to be the market leader in service and delivery.

We shall identify, document and continually improve our processes by striving for an increased customer value and to deliver flawless products and services. This will be achieved by that we set clear measurable process goals which is continuously monitored.

To ensure a systematic way of work, Ramnäs Bruk AB has a Management System, which satisfies the requirements of ISO 9001:2008 and is also subject to continuous monitoring and improvement.

Our Management system should serve as a support for the entire company and is applied by all employees in the company.

Magnus Westher
